

Japanese for precision

HIGH SPEED STORAGE SYSTEM

The Bullet Train – speed, accuracy and unerring reliability. The same features have been built into Daifuku's High-speed Storage System. The range has been designed and engineered to efficiently move products from the smallest item to the largest load.

Our materials handling equipment is second-to-none, and our experts combine consultation, planning, design, software, project management, installation and training – bringing you true systems integration. To find out more, call **01753 581000**, email sales@daifuku.co.uk or visit www.daifukueurope.com now.

DAIFUKU

The art of intelligent handling
